

INSTRUCTION FOR AUTHORS FOR PREPARING DRAFT COPY OF FULL PAPER

It is the sole responsibility of all authors to **ensure that all manuscripts are new, original and not published previously** in any form any media, shall not infringe upon or violate any kind of copyrights of others and does not contains any plagiarized, fraudulent and improperly attributed materials. Extended and modified versions of previously published abstracts, papers in any conference or journal are not allowed whatsoever. Also, the manuscript should be free from plagiarism (including self-plagiarism)

ENGLISH LANGUAGE AND COPYEDITING

It is sole responsibility of the authors to submit their final accepted manuscript in correct English language, free of all typographical/grammatical errors to meet high publishing standards.

TYPING: All manuscripts must be in English, typed double-spaced throughout (including footnotes, references, tables, legends) leaving at least 1 inch left hand margin.

INTRODUCTORY MATERIAL: The first page of the manuscript should have a concise title limited to about 15 words and the names of all authors, complete mailing address for correspondence, telephone, fax numbers and email address. Please indicate with an asterisk (*) the author to whom correspondence regarding the manuscript should be directed.

ABSTRACT: All manuscripts must contain an informative 100 to 250 words abstract explaining the essential contents of the work, key ideas and results. A list of 3-6 "Key Words" should be included with the abstract.

FIGURES: It is very important to supply high quality figures in a form suitable for reproduction. All figures, tables, illustrations, photographs should be prepared in such a way that they could be printed in a single column size with a width of 3 1/4 inches or 8.25 cm. Each figure must be referred to in the text and will be printed in black and white unless otherwise instructed by the authors. Each Figure should be submitted on a separate sheet and marked with the name of the author, title of manuscript and figure number. All formulae and figures should be carefully drafted and never drawn freehand. Use same font and size for all figure legends. High quality original figures are required. Photocopies of the figures and photographs are not acceptable.

EQUATIONS: All equations should be numbered consecutively, with the equation number written in parentheses on the right side of equation. Equations should be referred in the text as Equation (n), where n is the equation number. Please make sure that the equations are numbered correctly without any repetition.

TABLES: Each table must be referred to in the text. Each table should be typed double-spaced on a separate sheet and identified sequentially by Arabic numerals corresponding to the order in which they appear in the text. Each table should have a brief explanatory title, which should be labelled unambiguously. The position of each table should be clearly marked in the text.

UNITS: Internationally accepted units of measurement must be used. The units of measurement are used in conjunction with their numerical values; the units should be abbreviated as suggested below.

If more commonly used units are adopted, conversion factors should be given at their first occurrence. Greek symbols may be used.

%, °C, nm, μm (not m), mm, cm, cm³, m, h (or hr), min, s (or sec), μg, mg, g (or gm), kg, cal, kcal, in. (or write out inch), ml [write out liter(s)].

The APS style guide can be used as a general reference on matter of units, grammar and formatting.

ABBREVIATIONS: No abbreviations are allowed in the title and abstract and should be defined the first time they are used within the text. The "Journal of Computational and Theoretical Nanoscience" should be abbreviated as "J. Comput. Theor. Nanosci." for the journals/books citation purpose.

REFERENCES: References should be in the proper format on a separate page, numbered in the sequence in which they occur in the text. **Cite references numerically as superscripts in the text** and list at the end of the manuscript. References should be listed in the following style:

1. C. D. Scott and R. E. Smalley, J. Nanosci. Naotech. 3, 75 (2003)
2. J. M. Cowley, Diffraction Physics, Elsevier, Amsterdam (1995)
3. W. Heimbrodt and P. J. Klar, in Magnetic Nanostructures, Edited by H. S. Nalwa, American Scientific Publishers, Los Angeles (2002), Chapter 1, pp.1-58
4. J. P. Turner and P. C. Chu, in Microelectronics, T. J. Kern, Ed., Materials Research Society, Warrendale, PA (1995), Vol. 143, p.375.

Do not use the phrases "et al." and "ibid." in the reference section. Instead, the names of all authors in a reference must be listed.

ACKNOWLEDGEMENTS: These should be brief and placed at the end of the text before the references.

PROOFS: Page proofs for the correction of printer's errors only will be dispatched to the corresponding author denoted with an asterik (*) unless otherwise requested. Alterations at this stage are not allowed as they are expensive and may have to be charged to the authors. The proofread copy and reprint order form must be returned within 72 hours.

WARRANTIES AND COPYRIGHTS: By submitting the manuscript, the authors warrant that the entire work is original and unpublished; it is submitted only to this Journal and all text, data, figures/tables or other illustrations included in the research article are completely original and unpublished, and these have not been previously published or submitted elsewhere in any form or media whatsoever. All authors are responsible for the complete contents of their manuscript. The author(s) warrant that the work contains no unlawful or libelous statements and opinions and liable materials of any kind whatsoever, do not infringe on any copyrights, intellectual property rights, personal rights or rights of any kind of others, and **does not contains any plagiarized**, fraudulent, improperly attributed materials, instructions, procedures, information or ideas that might cause any harm, damage, injury, losses or costs of any kind to person or property. Each author(s) agrees to defend, indemnify, and hold harmless American Scientific Publishers and the Editors for any breach of such warranties. It is authors' responsibility to obtain written copyright permissions from other sources

(publishers) for reproduction of any figures, tables, photos, illustrations, text or other copyright materials from previously published work. It is the policy of American Scientific Publishers to own the copyright of all contributions it publishes. To comply with the U.S. Copyright Law, a Copyright Transfer Form that transfer copyright of the article to the publisher must be completed by the authors prior to publication of an accepted article in this journal. Authors must submit a signed copy of the Copyright Transfer Agreement.

ETHICAL ISSUES: Authors cannot submit a manuscript for publication to other journals simultaneously. It is waste of valuable resources because editors and referees spent a great deal of time processing submitted manuscripts. It is also unethical to republish similar research articles (text/figures/tables) again because journals have limited page space and it most likely violates copyrights which have already been transferred to the first journal. Therefore, all journals require a signed author's copyright transfer agreement stating the originality of the research work submitted through a manuscript. As stated above that authors should submit original, new and unpublished research work to the journal. The ethical issues such as plagiarism, fraudulent and duplicate publication, violation of copyrights, authorship and conflict of interest are serious issues concerning ethical integrity when submitting a manuscript to a journal for publication.
